## **Alberta Newsprint Company | Forestry**

Alberta Newsprint Company supplies companies throughout North America with high quality, cost effective and socially responsible paper products. The Company is a joint venture of The Stern Group (Whitecourt Newsprint Company Limited Partnership) and West Fraser Timber Co. Ltd.

## **Alberta-Pacific Forest Industries Inc. | Forestry**

Alberta-Pacific operates Canada's newest and North America's largest, single-line bleached kraft pulp mill. Alberta-Pacific is a private company owned by HOKUETSU Corporation (100%).

## **AltaGas Ltd. | Energy**

AltaGas is a leading North American energy infrastructure company that connects NGLs and natural gas to domestic and global markets. AltaGas creates value by growing and optimizing its energy infrastructure, including a focus on clean energy sources. For more information visit: [www.altagas.ca](http://www.altagas.ca)

## **Cenovus Energy | Energy**

On January 1, 2021 Cenovus Energy acquired Husky Energy, which began as a small refinery operation in 1938 and grew to become one of Canada's top integrated oil and gas producers. The combined company is the third largest Canadian oil and natural gas producer, the second largest Canadian-based refiner and upgrader, and unites high-quality and low-cost oil sands and heavy oil assets with extensive midstream and downstream.

Cenovus's strategy is focused on maximizing shareholder value through cost leadership and realizing the best margins for products. Cenovus believes that maintaining a strong balance sheet will help Cenovus navigate through commodity price volatility and give the flexibility to proceed with opportunities at all points in the price cycle. Cenovus aims to evaluate disciplined investment in their portfolio against dividend increases, share repurchases and maintaining the optimal debt level while retaining investment grade status.

## **Conuma Coal Resources Ltd. | Coal**

Founded in mid-2016, Conuma Coal Resources is a stand-alone, metallurgical coal producer based in Northeast British Columbia, Canada. Conuma's surface mine operations at Brule and Wolverine produce more than 4 million tonnes annually, and provide more than 850 jobs and security for families in the Peace River Regional District.

## **Federated Co-operatives Ltd. | Energy**

Federated Co-operatives Limited (FCL) is a co-operative that works in partnership with 180 independent, locally owned and operated member owned co-operatives across Western Canada. FCL serves its member-owners, which in turn serve their 1.9 million individual members and many more non-member customers. FCL's business operations include wholesaling across all primary good lines, administrative support and marketing programs. FCL also owns and operates the Co-op Refinery Complex (CRC) – which manufactures and supplies petroleum products across the Co-op Retailing System (CRS).

## **Gibson Energy ULC | Energy**

Gibsons has been providing essential midstream services to the North American energy industry for over 60 years. Headquartered in Calgary, Alberta, Gibsons is engaged in the transportation, storage, blending, processing, marketing and distribution of crude oil, condensate, NGLs and refined products. The Company also provides emulsion treating, water disposal and oilfield waste management services and is the second largest retail propane distribution company in Canada. Gibsons is traded on the TSX under the symbol GEI.

### **Inter Pipeline Ltd. | Energy**

Inter Pipeline is a major petroleum transportation, storage and natural gas liquids processing business based in Calgary, Alberta. Inter Pipeline owns and operates four business segments operating in Western Canada and Europe.

### **Keyera Corp. | Energy**

Keyera Corp. (TSX:KEY) operates one of the largest midstream energy companies in Canada, providing essential services to oil and gas producers in the Western Canada Sedimentary Basin. Its business consists of natural gas gathering and processing, natural gas liquids processing, transportation, storage, marketing, iso-octane production and sales, and a condensate system. Keyera is committed to conducting its business ethically, safely and in an environmentally and financially responsible manner.

### **K+S Potash Canada | Potash**

KSPC is a K+S Group company with headquarters in Saskatoon, Saskatchewan; a solution potash mine and production facility located near Moose Jaw, Saskatchewan; and a world-class potash handling and storage facility operated in partnership with Pacific Coast Terminals in Port Moody, British Columbia. Bethune mine, formerly known as the Legacy Project, is the first new potash mine in Saskatchewan in nearly fifty years (a \$4.1B capital investment in Canada) and the largest investment by a German company in Canada. The Bethune mine has created new job opportunities for Canadian workers, new business opportunities for Canadian companies supplying goods and services to this major economic development, and long-term capacity for community investments.

### **Lehigh Cement | Concrete | Aggregates | Fly Ash**

Lehigh Cement produces cement, aggregates (crushed rock, sand and gravel), ready mixed concrete, asphalt, and a range of other building materials including precast concrete products, pressure and gravity pipes, roof tiles and clay bricks. Lehigh is an affiliate of Lehigh Hanson Canada, part of the HeidelbergCement Group, one of the largest building materials manufacturers worldwide. The HeidelbergCement shares are listed on various German stock exchanges.

### **Millar Western Forest Products Ltd. | Forestry**

Millar Western is a worldwide supplier of softwood dimension lumber, specialty wood products, and hardwood and softwood bleached chemi-thermo-mechanical pulp. The Company operates sawmills in Whitecourt and Fox Creek, Alberta, a pulp mill in Whitecourt, Alberta, and a value added manufacturing wood products facility in Acheson, Alberta. Its head office is located in Edmonton, Alberta.

### **Montem Resources Corp. | Coal | Renewable Energy**

Montem Resources is a metallurgical coal explorer, developer and future producer in addition to being a potential renewable energy developer. The company is committed to achieving success through the pairing of world-class assets with an exceptional management and operational team. Montem owns six strategically located and high-quality metallurgical coal properties in Alberta with excellent access to rail. One of those properties also enjoys a unique layout that could support a significant pump hydro energy storage facility.

### **Pembina Pipeline Corporation | Energy**

Pembina is a leading transportation and midstream service provider that has been serving North America's energy industry for more than 65 years. Pembina owns an integrated system of pipelines that transport various hydrocarbon liquids and natural gas products produced primarily in western Canada. Pembina also owns gas gathering and processing facilities; an oil and natural gas liquids infrastructure and logistics business; and is growing an export terminals business. Pembina's integrated assets and commercial operations along the majority of the hydrocarbon value chain allow it to offer a full spectrum of midstream and marketing services to the energy sector. Pembina is committed to identifying additional opportunities to connect hydrocarbon production to new demand locations through the development of infrastructure that would extend Pembina's service offering even further along the hydrocarbon value chain. These new developments will contribute to ensuring that hydrocarbons produced in the Western Canadian Sedimentary Basin and the other basins where Pembina operates can reach the highest value markets throughout the world.

### **Plains Midstream Canada | Energy**

Plains Midstream Canada owns, operates, and develops a diversified portfolio of complementary midstream energy assets. The Company's extensive network of pipelines, terminals, storage and gathering assets are located in key crude oil and NGL producing basins, transportation corridors, and at major market hubs in Canada and the United States

### **Sultran Ltd. | Sulphur**

Sultran Ltd., a private company owned by major oil and gas producers, manages the logistics of moving around three million tonnes of sulphur annually via rail from origins in western Canada to two terminals on the Canadian west coast, for unloading, storage and loading to vessels. Sultran owns Pacific Coast Terminals, a state-of-the-art, marine bulk terminal on Burrard Inlet in Port Moody, British Columbia that provides handling and storage services to the sulphur, potash, glycol and canola oil industries.

### **Suncor Energy Inc. | Energy**

Suncor Energy is Canada's leading integrated energy company, with a global team of over 30,000 people. Suncor's operations include oil sands development, production and upgrading, offshore oil and gas, petroleum refining in Canada and the US, and our national Petro-Canada retail distribution network (now including our Electric Highway network of fast-charging EV stations). A member of Dow Jones Sustainability indexes, FTSE4Good and CDP, Suncor is responsibly developing petroleum resources, while profitably growing a renewable energy portfolio and advancing the transition to a low-emissions future. Suncor is listed on the UN Global Compact 100 stock index.

### **Vista Energy Resources | Coal**

Vista Energy Resources subsidiary Bighorn Mining has successfully developed an ultra-low sulfur, low ash, world-class thermal seaborne coal project. Servicing Asia-Pacific market(s), the project has moved from development into a highly scalable, productive, low-cost asset – currently exporting 6Mt per annum.

### **West Fraser | Forestry**

West Fraser is a leading North American integrated wood products company producing lumber, wood chips, laminated veneer lumber, medium density fiberboard, plywood, pulp and newsprint. The Company has operations in western Canada and the southern United States.

## **Associate Members**

### **Arrow Transportation Systems**

Started in 1919, Arrow is a privately owned, diversified transportation company. Based in British Columbia, Arrow currently employs more than 1,000 employees across North America and focuses on trucking, rail transloads, logistics, manufacturing, environmental services, marine and technology development.

### **Cando Rail & Terminals**

Cando Rail & Terminals is Canada's leading provider of specialized rail operating services that allow industrial shippers to optimize their supply chains and connect to Class 1 railways by leveraging Cando's operating capabilities and network of owned multi-purpose rail terminals. The company provides a wide range of rail services including short line operations, industrial switching, material handling, terminal and transload services, railcar staging, train assembly, and related services. Fully embedded in their customers' supply chain, Cando Rail & Terminals ensure their customers' products get to where they need them, when they want them. [www.candorail.com](http://www.candorail.com).

### **GATX Rail Canada**

GATX Corporation, founded in 1898, is the leading global railcar lessor. GATX own railcar fleets in North America, Europe, and Asia. GATX jointly own one of the largest aircraft spare engine lease portfolios in the world. GATX operate through three business segments: Rail North America, Rail International, and Portfolio Management. In the North American rail market, GATX has a fleet of more than 118,000 railcars, and also owns a fleet of 601 four-axle and 28 six-axle locomotives.

### **Mountain View Group**

The Mountain View Group is an industrial transloading company with locations in BC, WA, TX, and MT. It is a privately-owned company that has been in business for over 30 years. Mountain View's clients include numerous forestry and steel customers across North America. Services include rail, trucking, and export container shipping and transloading.

### **The Washington Group – Southern Railway of BC & Seaspans Ferries Corporation**

The Washington Group is a diversified company that includes Marine and Ferry Services, Shipyards, and Railways.

Southern Railway of BC is comprised of three entities: SRY Rail Link (SRY), Southern Railway of Vancouver Island Ltd. (SVI), and Blue Water Rail Services. SRY and SVI support the agriculture, automotive, bulk commodities, plastics and chemicals, petro-chemicals, steel and building products, and forestry/lumber sectors by providing safe first and last mile rail-based solutions in the Greater Vancouver Gateway and Vancouver Island Corridors, seamlessly connecting customers to markets throughout North America with six interchanges with our Class 1 partners: BNSF, CN, and CPRS. Blue Water Rail Services is a terminal switch operator in Western Canada, tailoring solutions to maximize the customers' assets and improving their operational efficiencies and growth potential. (cont'd next page)

Seaspans Ferries Corp (SFC) operates an extensive commercial ferry service linking terminals on Vancouver Island to terminals on the BC Mainland. Through its SFC Logistics Division it provides barge terminal and transloading services for container, truck, tug and barge and project cargo that connect customers to export terminals, rail and distribution centers.

### **Strategic Partnership**

#### **WCSC and Pulse Canada**

In December 2015 WCSC and Pulse Canada developed a strategic partnership to collaborate on transportation issues of mutual interest. Pulse Canada is a national industry association that represents over 35,000 growers and 109 processor/exporters of peas, lentils, beans and chickpeas. Canada is the world's largest producer and exporter of peas and lentils, accounting for over 1/3rd of all global pulse trade.
